You have these components when you buy this Swing Seat with Carabiner.

ASSEMBLING STEPS

1. The product should be placed at a distance of at least 2m from other objects (e.g. fence, branches, building walls).
2. The product should be placed on an even, flat surface; the surface below should have shock-absorbing properties. The product should not be mounted on the concrete slab, asphalt and other hard surfaces. There must be no objects with sharp edges or pointed ends in the safety zone. In the winter period, the product and other equipment elements should be disassembled and stored. Surface conditions in the winter do not guarantee safe play.
3. The product should be placed at a minimum distance of 45 cm from other devices and the side construction beam. A minimum distance between the seat and the floor should be 35cm.
4. As a precaution, inspect the product and its parts regularly.
No spare parts are provided. They are available from the supplier.
5. It is recommended to play with the ninja suit.

USER SAFETY INSTRUCTIONS

1. Read the instructions carefully before use.
2. Noted this accessory is to be used only on approved designs.
DO NOT alter its design or add/remove components.
3. Make sure all hardware is tightened securely (Supplied bolt covers must also be fastened securely).
4. The swing should be set only by adults, children (under 12 years old) use this swing must be under supervision of adults.
5. Check the swing, before facilities, the fixing ring and hanging points carefully, a secure fit is required before using.
6. When the rope broken or loosen, swing is not allowed for next using.
