### CERAMIC BAKEWARE SET

- Made of High-Quality Glaze
- Non-Stick Ceramic Coating
- Can Stand Heat Up to 446°Fahrenheit
- Unique Wavy Pattern Design
- Long-Lasting Color
- Exquisite Double Ear Handles Design
- Environmental-Friendly
- Stain-Resistant and Easy Clean Up
- Dishwasher Safe
- PTFE/PFOA/PFOS Free

• Oven and  
Microwave  
Safe

• When removing Bakeware from the oven, use oven mitts or other heat proof material to protect your hands.

### CLEANING & CARE

Although NutriChef Ceramic Bake ware is dishwasher safe, it is preferably cleaning it by hand. Dishwasher detergents can contain bleach and citric acids that are too harsh for the finish.

Do not use any acidic products to clean bakeware. The high acid content can cause the finish to erode quickly.

Never use metallic utensils. Plastic, silicone, wood, or nylon spoons and spatulas are the best. Do not cut foods with a knife in ceramic bakeware to prevent damage.

Avoid cooking sprays. Cooking sprays can leave a hard-to-remove residue that builds-up. Some may contain ingredients that are too harsh for ceramic coatings.

Before cleaning, allow the bakeware to cool down and wash it with warm water. Never use abrasive cleaners or scrubbing pads when cleaning.

Do not stack bakeware without a pad between them. It will prevent scratches to the interior and exterior of the bakeware.
