

GENERATOR COVER

MODEL: PCVGNL8

PYLE[®]
PyleUSA.com

WARNING

Do not operate the generator with the cover on.

CAUTION!

Let your generator cool before you put the cover on.

Installation

Check your generator to make sure there are no sharp objects or corners that could stress your cover as you pull it on. Open the panel attached with hook and loop tabs and slip your cover over your generator with this panel to the back. Close the cover by aligning the hook and loop tabs together. Fit handles through the provided openings in the upper back corners then close the back panel underneath them.

Use and Storage

Your Generator Cover has an integrated storage bag.

To fit your cover in the bag fold and roll it tightly rather than stuffing it.

Never store a wet cover in the storage bag or confined area as the cover can be damaged by mildew.

Cleaning and Care

Clean your cover with a soft brush and lukewarm water.

DO NOT USE SOAP as it may remove the protective coatings added by the factory.

DO NOT PACK WET.

Air dry.

LINE DRY

DO NOT IRON

NO BLEACH
