

LAWN MOWER COVER

MODEL: PCVLM36

PYLE[®]
PyleUSA.com

WARNING

Do not operate the lawn mower with the cover on.

CAUTION!

Let your lawn mower cool before you put the cover on.

CAUTION

If your lawn mower is new, use of this product is not recommended within the first four weeks of ownership of the lawn mower. Some compounds used in new machines can release gases that will cause the dyes in lawn mower covers to transfer to the machine, potentially staining the lawn mower or its components. Lawn mower covers can be used safely after this introductory period.

Installation

Check your tractor for sharp corners or edges that could stress your cover as you pull it on. Look for a white tag sewn in the bottom hem that says, "front". Slip your cover over the top of your tractor with the white tag at the front, then pull the cover down on all four corners.

Use and Storage

Your Lawn Mower Cover has an integrated storage bag.

To fit your cover in the bag fold and roll it tightly rather than stuffing it.

Never store a wet cover in the storage bag or confined area as the cover can be damaged by mildew.

Cleaning and Care

Clean your cover with a soft brush and lukewarm water.

DO NOT USE SOAP as it may remove the protective coatings added by the factory.

DO NOT PACK WET.

Air dry.

LINE DRY

DO NOT IRON

NO BLEACH
