INSTALLATION GUIDE

Product Description

Pyle's Hydra series speakers are water resistant and designed for use in your boat, on the dock, by the pool, or simply mounted outside. They're designed with rust-proof mesh covers for quality protection. The PLMR82 is a 300-watt, 8" two-way, full-range speaker suitable for marine use. These white speakers are equipped with a 1/2" neodymium dome tweeter for rich highs and a 1.5" aluminum voice coil for accurate sound reproduction. The molded ABS plastic basket keeps your sound distortion-free.

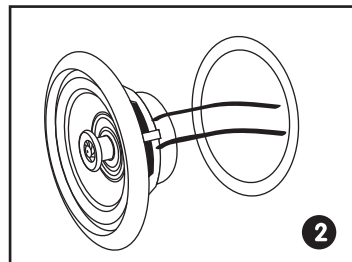

Installation

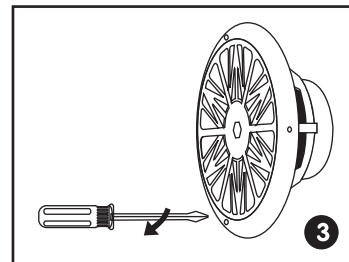

Cut the drywall.

Note:

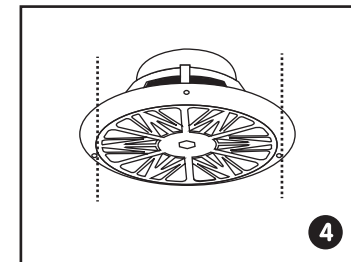

Always allow at least one-half inch between a wall stud and the speaker cutout or the locking tabs will not be able to swivel into place.

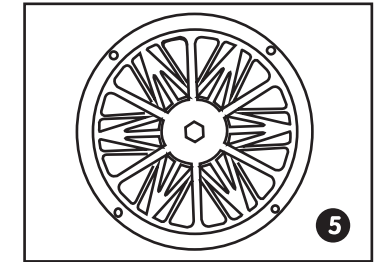

Connect the speaker wires to the speaker.

Screw down each of the four Phillips head screws. The locking tabs will swivel into place and secure the unit to the rear surface of the drywall. Put in the strips of adhesive to secure the grille.

Replace the metal grille.

Complete

Features:

- Includes (2) 8.5" Component Speakers
- Marine Grade Weather Proof Construction
- Full Range Stereo Sound Reproduction
- 2-Way Dual Cone Speakers
- Poly Carbon Cone, Cloth Surround
- Molded ABS Machined Basket and Grill
