USER GUIDE

PRECAUTIONS

- **Ensure correct polarity of cells used.**
Insert the batteries in the correct direction by aligning the (-) marks on the batteries with the spring in the back cover.
- Use new batteries/cells whenever possible.
- When the megaphone will not be in use for a long period of time, remove the dry cells and replace. Drained cells or rechargeable battery will not give sufficient sound volume.
- Replace cells or charge the battery at regular intervals, for optimum result.

OPERATING INSTRUCTIONS

- Open the back cover by pressing down on the 'Open' Button
- Insert 4x 'C' Batteries then close back cover until locks into position.
Now, your megaphone is ready for operation.
- To activate the megaphone, press the 'ON/OFF' button on the back cover.
- When using the megaphone, place your lips as close as possible to the megaphone when speaking. Adjust the 'Volume' to the desired level without causing any howling or feedback.
- Press the 'Siren' button to activate emergency siren/alarm.
- Adjust the volume control to the min. before recording.
To record, press the **RECORD** button. Now your megaphone is ready for recording. The longest record time is about 240 seconds. Press the **RECORD** button again after recording is done.
- Press the **PLAY** Button to activate the recorded materials circularly.
