Instructions for Use:

1. Assembly:

- Unfold the tripod base and place the stand on a flat, level surface.
- Extend the tripod legs and secure them into place.

2. Adjusting the Height:

- To adjust the height, loosen the knob-style tension locking mechanism.
- Extend or collapse the stand to the desired height (42.4 inches to 70 inches).
- Tighten the locking mechanism to secure the height setting.
- Ensure the locking safety pin is inserted to prevent accidental movement.

3. Mounting Your Speaker:

- Lift the speaker carefully and place it on the 35mm compatible insert at the top of the stand.
- Ensure the speaker is securely positioned, and the locking pin is engaged to hold the speaker in place.

Cleaning, Maintenance, and Storage Guide

Cleaning:

- To clean the speaker stand, use a soft cloth to wipe down the metal surfaces.
For stubborn stains, lightly dampen the cloth with water or a mild cleaning solution.
- Do not use abrasive cleaners that could damage the glossy black finish.

Maintenance:

- Regularly check the tension locking mechanism and safety pin for any signs of wear or damage. Tighten any loose screws or bolts.
- Ensure the stand is placed on a stable, level surface to maintain safety and functionality.

Storage:

- When not in use, store the speaker stand in a dry, cool place.
- For compact storage, collapse the stand to its minimum height (42.4 inches).
- Avoid storing the stand in extreme temperatures or high-humidity environments to prevent damage to the finish or metal components.

California Prop 65 Warning

⚠️WARNING:

This product may expose you to chemicals, which is known to the state of California to cause cancer, birth defects and other reproductive harm. Do not ingest.
