Baby Bedside Sleeper and Toddler Play Pen

USER GUIDE

IMPORTANT!

Please read all instructions before assembly and use of product. Keep instructions for future use.

IMPORTANT: RETAIN FOR FUTURE REFERENCE - READ CAREFULLY.

WARNING: BEFORE USE, REMOVE AND DISPOSE OF ALL PLASTIC BAGS AND PACKAGING MATERIALS AND KEEP THEM OUT OF REACH OF CHILDREN.

WARNING: This product is intended for use for babies aged between 0 and 6 months, weighting up to a maximum of 9kg.

WARNING: When a child is able to sit, kneel or to pull itself up, the crib shall not be used anymore for this child.

WARNING: Do not use the product if any part is broken, torn or missing.

WARNING: Be aware of the rise of open fires and other sources of strong heat, such as electric bar fires, gas fires, etc.

- Before assembly, check that the product and all of its components have not been damaged during transportation.
- Should any part be damaged do not use and keep out of reach of children.
- Make sure the users of this product are knowledgeable on its proper operation.

WARNING: The product is ready for use only when all locking mechanisms are engaged. Check carefully that these are engaged before use.

WARNING: When the child is left unattended in the product, in “crib mode”, and the zippers are completely closed.

- When the products is being used especially in “crib mode”
- All opening, adjusting, anchoring and positioning operations of the product must be carried out exclusively by an adult.
- Before use in Co-sleeping mode, make sure the product is properly anchored and positioned.

WARNING: When the product is used in Co-sleeping mode, before laying the child in it, the product must be secured to the parents’ mattress and no gaps between the products and the adults’ mattress must be present.

- The product must always be placed on a horizontal surface.
Never leave the product on an inclined surface with the child inside of it.
- Children must not be permitted to play without supervision near the product.
- Do not use the product without the frame.
- The thickness of the mattress must be such that the vertical height (upper surface of the mattress until the upper edge of the product's sides) is at least 200mm.
- Do not use more than one mattress in the crib.
- If you purchase a mattress separately, make sure it is suitable for the product.
- The reference mark on the product's interior indicates the maximum thickness of the mattress that shall be used.
- Do not leave any object inside the product that could reduce its depth.
- Do not position the cot near walls and obstacles to prevent choking hazards.
- Use only spare parts approved by the manufacturer. Do not apply accessories to the product, which are not supplied by the manufacturer.
- Do not adjust the product with the child inside.
- Do not move the product with the child inside.
- Do not use the product with more than one child at a time.
- **The product must be kept away from electric cables and cords:** do not place the product near windows where cords, curtains or similar objects could pose choking or strangling hazards for the child. To avoid strangling hazards, do not give to your child or place near him, objects equipped with cords.

COMPONENTS

- A.** Crib frame with fabric lining
- B.** Central supporting structure
- C.** Down supporting rod
- D.** Mattress with removable cover

ASSEMBLY

ASSEMBLING THE CRIB

1. Open the frame leg (fig.1), position the frame with fabric lining as showed in (fig.2).
2. Attach the central supporting structure to the 2 legs as illustrated in figure 3. The **CLICK** of the pivot indicates correct attachment of the structure (fig.4).
3. Attach the down supporting structure to the two legs as illustrated in fig.5. The **CLICK** of the pivot indicates correct attachment of the structure (fig.6).
4. Prop up the frame as illustrated in fig.7 and fasten the fabric lining onto the central supporting structure tube as illustrated in fig.8.
5. Position the mattress on the bottom of the crib (fig.9). At this point the crib is ready to be used (fig.10).

WARNING: Check to make sure that all of the fasteners have been correctly attached and that the zips are closed and locked right to the end.

HEIGHT ADJUSTMENT OF THE COT

The crib can be adjusted to different height positions. In order to adjust the height, pull the adjustment lever upwards and lift the crib to the desired position (fig.11). Repeat this operation on the opposite side. The base of the crib can be slightly inclined by adjusting the 2 legs to different heights (fig.12).

WARNING: The crib can be inclined with a maximum variety of 2 positions between one leg and the other. (for example: the right leg in position 3 and the left leg in position 1)

WARNING: The head of the child should always be positioned on the highest side.

BEDSIDE SLEEPING MODE

The crib can be used next to parents bed (*Bedside Sleeping Mode*).

WARNING-IMPORTANT FOR THE SAFETY OF YOUR CHILD

This method is only possible with bed types that comply with all of the conditions described in this paragraph. In particular the side support of the crib should always be put close to the parent's mattress and the mattress should always be aligned with the height of the side support for restraint of the crib.

WARNING

- Check to make sure that the crib in the *Bedside Sleeping Mode* does not interfere with the parent's bed.
- During use, make sure that the parents bed sheets, blankets etc. do not enter and cover the interior of the crib.

6. Open the side of the crib with the window using the side zips and open them completely (fig.13)

7. Then press the removable tubular structure release button and remove partially on one side and then on the other (fig.14.15.16).

WARNING: Use the crib with the tube lowered, only in the *Bedside Sleeping Mode*.

Move the crib close to the parent's bed and check the height of crib compared with the mattress of the bed.

WARNING: The height of the parent's mattress should always be more than that of the side support for containment of the crib. In the *Bedside Sleeping Mode* the 2 legs of the crib should always be adjusted to the same height.

WARNING

- Product use is only permitted with beds and/or mattresses with straight sides. Use of the product with round beds and/or mattresses or water beds is not permitted.
- When the product is used in the "*Bedside Sleeping Mode*" (it should always be positioned next to the long side of access to the bed. **DO NOT** position the product to the head or bottom of the bed.)

The cot do not swing

In order to make it stable on flat level when baby is in the crib; we have two support frames on the base of the cot; This ensures the baby does not drop down and never hobbles in the crib cot;

WARNING!

This crib swing function must be operated by an adult. Whenever an adult leaves, the swing function must be closed in order not to make crib rollover.

MAINTENANCE ADVICE

The crib and the mattress have a resistant fabric cover, which is completely removable and washable. The removal/application activities should be carried out by adults only. On a regular basis check the condition of the product and the presence of any possible damage. In the case of damage do not use it and keep it out of the reach of children.

- For washing of the fabrics, carefully comply with the instructions indicated on the label.
- For cleaning do not use solvents, abrasive products or aggressive products.

Hand wash in cold water

Do not iron

Do not bleach

Do not dry clean

Do not tumble dry

After each wash check the resistance of the fabric and of the stitching.

WARNING: During the removal and/or application of the lining, handle the fabric carefully in order to avoid accidental damage or tears.

WARNING: The removal and/or application operations may take a few minutes and should be carried out by an adult.

DISASSEMBLING THE CRIB

The crib can be fully disassembled in order to store it in the bag supplied with the product. To disassemble the crib, remove the crib from the frame then disassemble the frame.

REMOVABLE FRAME

8. Open the side of the crib with the window using the side zips and open them completely (fig.17).
9. Then press the removable tubular structure release button and remove partially on one side and then on the other (fig.18,19).
10. Unfasten the velcro as showed in (fig 20).
11. Open the zip located on the upper edge of the crib (fig 21, 22) and remove the fabric lining completely (fig.23).

FEATURES:

- Easy and Tool-free Assembly
