Selfie Lighted Smart Case
Power Bank Phone Protection
with Built-in LED Lights

Lite•Me

INSTALLATION

- Lay your case down on flat surface or table top
- Slide your phone into the top portion firstly, then gently press your phone into the bottom portion of the case until securely inserted.

USING THE LIGHT

- Press the button on the back of the case to turn the light ON/OFF.
- Once turned ON, press and hold the button to adjust the light's dim / brightness level adjustment. Press and hold again to further adjust the dim/brightness level. Once adjusted, release your finger to keep the setting.
- 'Double Press' the button quickly to activate the blinking/strobing effect.
- 'Double Press' the button again to change the speed of the blinking/strobing effect.

RECHARGING THE BATTERY

- Use the included USB cable to charge your case. The built-in rechargeable battery charges via the MICRO USB port located on the bottom of the case.
A red LED indicator light will blink indicating the device is charging.
 - *It is recommended to fully charge battery before first use.
 - *Charge lasts approximately 2 hours at full brightness.
 - *Unit is set at full brightness when turned on for the first time.

REMOVING THE PHONE

- To remove your phone from the case, simply apply upward pressure to the bottom of the phone and lift the phone out of the case.

FRONT PANEL
