1. NAMES AND FUNCTIONS OF PARTS

2. INSTALLATION

PREPARATION

- A. Remove the existing toilet seat.
- C. Flush toilet to drain tank completely.

- B. Turn off the water valve.
- D. Take out exiting water pipe.

! HELPFUL TIP:

Over tightening flexible hoses adaptor can cause damage to the threads and result in water leakage. Use only hand pressure first and check for any leakage. Turn only less than quarter turn at a time making sure there is no leakage.

3. FINAL ASSEMBLY

Congratulations! You are now ready to use your THE Bidet Attachment. Be sure to slowly turn pressure control knob until you reach the desired pressure. The water pressure control device is to be used only to control water pressure, not to set up the duration of the water spray.

TROUBLE SHOOTING

Twin Nozzle System

If your spray outlet hole is clogged for some reason, simply try to move spray outlet up and down for a few times manually.
